COMMUNITY CENTER IMPROVEMENTS

The Borough of Stratford is thrilled to announce that Stratford was awarded a community center improvement grant in the amount of \$66,000.00.

This grant will fund phase II of improvements to the Stratford Community Center. Our 2024 improvements will include a complete renovation of the kitchen, new cabinets, backsplash, sink, countertops and new appliances.

Other improvements include a surround sound system and a back-up natural gas generator. Other priorities are improvements to the foyer, and the construction of a portico outside the front doors.

On behalf of the governing body, we are grateful for these grant funds, and we hope our residents and various community and civic groups are pleased as well.

Warmest Regards,

Mayor Linda Hall
