MAYOR HALL'S HIGHLIGHTS

Community Update: Exciting Progress Around Town!

The borough applied for a grant to improve ADA ramps at various locations throughout our town.

We're thrilled to see continued progress on several projects around town! Work is actively underway at the gas station located at the corner of White Horse Pike and White Horse Road, and it's great to see things moving along.

In addition, construction is progressing on the new orthodontic building behind CVS, as well as Church's chicken restaurant at the other corner of Laurel Road and White Horse Pike. These developments are bringing new energy to the area, and it's exciting to watch them take shape.

We also want to share that Kennedy Pharmacy, formerly located at Rowan University, has partnered with White Horse Pharmacy to continue providing the same convenient and trusted services our community has come to rely on.

We look forward to welcoming these new and expanded businesses to our community and are eager to support them once they open their doors. Last week I had the pleasure of attending the ribbon cutting ceremony for the Great American Storage Unit on Berlin Road. Be sure to stop by and show your support when they're ready—we can't wait to see all they have to offer!

Congratulations to Battalion Chief Brian Martin on becoming a NJ State Fire Inspector and for initiating the SARS unit in Stratford.

Congratulations to Martha Lieberman for being awarded Stratford's Outstanding Community Service. Martha will also be acknowledged by Camden County next week for her continued commitment to serve our community.

 **Please join us at our next council meeting on May 14th at 6:30pm on the first floor of the Justice Center.**
